

CARBON EMISSIONS REPORT

Organization: **Acme Manufacturing Co**

Industry: Manufacturing

Country: United States

Report Date: February 04, 2026

EXECUTIVE SUMMARY

This report presents a detailed assessment of greenhouse gas (GHG) emissions generated by the organization during the reporting period. Emissions have been classified according to the GHG Protocol into Scope 1, Scope 2, and Scope 3 categories.

| Emission Scope | Description | CO ₂ e (tonnes) |
|----------------|-------------------------|----------------------------|
| Scope 1 | Direct fuel combustion | 1836 |
| Scope 2 | Purchased electricity | 882 |
| Scope 3 | Logistics and suppliers | 1010 |

The organization is advised to continue monitoring emissions and implement reduction initiatives aligned with international climate goals.
